FACILITIES

WHO WE ARE

Park Hotel Italia close to the shores of the lake, surrounded by greenery and with a breathtaking view, our structure is located in Cannero Riviera, a small town on the shores of Lake Maggiore.

We are characterized by an ancient history that dates back to the early 1900s, when the De Stefani family built the hotel and gave it the name of "Hotel Italie". An initial restructuring subsequently led to a change in the denomination which became "Grand'Italia".

Finally, in 2014, it was taken over by the Cavagnera - Gallinotto family who currently own it and who transformed it into the current Park Hotel Italia, a modern structure full of luxurious comforts for your holiday.
