FACILITIES

WHO WE ARE

Overlooking the shore of Lake Maggiore, located in a favoured spot in the center of Stresa, the pearl of the Lake, and facing the Borromeo Islands, the hotel represents the yesteryear's charm and prestige enriched by the history and the grace each epoch donated. The Regina Palace, inaugurated in 1908 still preserves its fin de siècle charm, even though it has a renewed appearance as a result of a meticulous albeit conservative refurbishment programme. The edifice conveys his personality and the obsession for uniqueness and extravagance in its adornments and eclectic decors. There is no object, no glass wall, no golden leaf in one of rooms, in the lobby nor in the dining halls, equal to another. In the centuries-old park there is an outdoor swimming pool, a tennis court and a five-a-side football pitch. Le Grill restaurant is ideal for a quick snack or a light lunch. The Regina Sporting Club, the hotel's wellness center, counts with an indoor and heated swimming pool, full of energizing water features.
