FACILITIES

WHO WE ARE

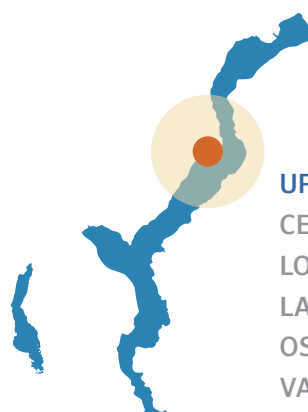

The apartments of the Residenza dei Fiori were created with the aim of offering comfortable accommodation to families with small children or teenagers, guaranteeing in any case all the services of the Hotel Cannero Lakeside Resort. However, they can also accommodate just two or three adults. They are mostly composed of a double room with a double bed (or two separate beds if requested) for two people and a living room with a sofa bed for one/two children. In some apartments it is possible to add an additional bed. The hotel provides cots for younger children upon request and for a fee. The bathroom has a shower and the kitchenette is designed to cook baby food, milk or what you need for a snack at any time. The kitchenette is completed with a table and chairs and is equipped with a microwave oven, dishes, utensils and kitchen linens. The linen for the bathroom and sleeping area is provided by the hotel and is changed regularly. The apartments are cleaned every day by the hotel maids and tidied up in the evening. They are not suitable for hosting people with disabilities or mobility difficulties (for example people with wheelchairs, etc.).
